Deep-Sea Expedition Rubric

Use the following criteria to guide your group as you write your Deep-Sea Expedition Project Proposal Plan. Your final proposal must be approved before the expedition can begin.

Category	Needs Improvement (1)	Satisfactory (2)	Good (3)
Roles of team members	The role of each team member is not adequately described in the project plan.	The role of each team member is described in the project plan, but the descriptions lack detail and/or do not logically connect to the skills and knowledge of the team members.	The role of each team member is thoroughly described in the project plan, and the descriptions logically connect to the skills and knowledge of the team members.
Adequate detail	The project plan contains adequate detail for fewer than four of the prompts.	The project plan contains adequate detail for at least four of the prompts.	The project plan contains adequate detail for all the prompts.
Constraints and considerations	The project plan does not reflect an understanding of the main constraints and considerations of the expedition.	The project plan reflects an understanding of only some of the main constraints and considerations of the expedition.	The project plan reflects an understanding of all the main constraints and considerations of the expedition.
