Size Me Up—to Ocean Animals! Answer Key

Write the length of each ocean animal in column 2. Then use the key below to change these measurements into metric and Unifix Cubes. Finally, measure to figure out which of your body parts are similar in length to each animal.

Ocean Animal	Length (English)	Length (Metric)	Length (Unifix® Cubes)	Comparable Student Body Part
Antarctic krill	2.4 inches	6.09 centimeters	2.4 cubes	pinky finger
deep-sea jellyfish	8 inches	20.32 centimeters	8 cubes	foot
viperfish	1 foot	30.48 centimeters	12 cubes	forearm
gulper eel	2 feet	60.96 centimeters	24 cubes	leg
African pompano	3 feet	91.44 centimeters	36 cubes	whole body
blue whale	94 feet	28.651 meters	1,128 cubes	~ 20 students
