Size Me Up—to Ocean Animals!

Write the length of each ocean animal in column 2. Then use the key below to change these measurements into metric and Unifix Cubes. Finally, measure to figure out which of your body parts are similar in length to each animal.

Ocean Animal	Length (English)	Length (Metric)	Length (Unifix® Cubes)	Comparable Student Body Part
Antarctic krill				
deep-sea jellyfish				
viperfish				
gulper eel				
African pompano				
blue whale				

Key
1 Unifix Cube = 1 inch
1 inch = 2.54 centimeters
1 foot = 0.3048 meters
