Just in time for the 100th anniversary of the *Titanic's* ill-fated journey, this National Geographic Kids reader is filled with brilliant photographs and exclusive in-depth coverage, including National Geographic Explorer-in-Residence Robert Ballard's 1985 discovery of the wreckage. The historic significance of the *Titanic* is brought to you only as National Geographic can—the industrial feat of the powerful ship, the tragedy of its sinking, and the fascinating stories of survival. Visit the National Geographic store to purchase the full level 3 reader, for ages 6-8.
