Innovation Debate Preparation

Refer back to the stories of the three innovations to fill in this chart. List at least three statements that you feel are proof that the innovation you chose has had the most impact on your life and the world. Look for facts in the reading to support each statement. Then look at the other two innovations and imagine what those supporters would say to prove they are right, listing them in the second and third area of the chart. Consider what you would say to rebut, or argue against, each of those statements and add that to your chart. Use this chart as you practice to prepare for the debate.
