prompts

**Directions:** Record your responses to each of the following using words and images.

1. What did you learn from the videos *Climate Change and California's Drought* and *Droughts 101*? What questions do you have? What was surprising? Record your response to the videos in the space below.

2. Answer the following questions about the [Why Cape Town is Running out of Water and Who's Next](#) article in the space below.

What do you think is causing Cape Town to run out of water?

How do you think the residents feel?

How do you think the residents of the Ganges-Brahmaputra watershed (that you read about in the [Living in Mount Everest's Watershed](#) article during the *Watersheds* activity) would feel if they ran out of water? Try to consider a specific person when you journal your response.

3. What did you learn from the [How Climate Change Impacts Water Access](#) article? What questions do you have? What was surprising? Record your response in the space below.

4. Create a cause-and-effect pathway for how climate change impacts drought in the space below.
