Stakeholder Chart

Part 1. Answer the questions in this chart for each stakeholder as you read the Klamath Basin Case Study and as you research the Klamath Basin conflict.

Stakeholder	In what ways will they be affected?	Is it a positive or negative effect?	Is this effect the intended goal of the action, or is it a side effect?	Has the stakeholder group placed itself in this position voluntarily and with appropriate understanding of the risks involved?	How important to YOU are the interests of this stakeholder? (1 = very important, 2 = somewhat important, 3 = unimportant)	If the effect is negative, do you feel it is directly offset by greater good elsewhere?	Notes
PacifiCorp							
Fishermen							
Native American tribes							
Farmers							
State of California							
Federal government							
Wildlife conservationists
