## Stakeholder Discussion Prompts

**Part 1.** Compare your Stakeholder Table with those of the other groups. Use the questions below to get the discussion started.

1. Did other groups have the same ideas as your group about how stakeholders would be affected by the act? How did they differ?

---

---

2. Did other groups have the same assessment of which stakeholders would have the most influence over which measures should be included in the act? How did they differ?

---

---

**Part 2.** Select one Stakeholder Table that is significantly different from yours. Discuss the differences, using the questions below.

3. For which measures did the other group create consequences webs?

---

---

4. How might the focus on different measures have influenced that group's thinking about the effects of the act as a whole?

---

---

5. How did the measures you investigated influence your own ideas about the act as a whole?

---

---

6. How does this relate to presidential decisions?

---

---

7. Why might it be important for a president to hear advice from multiple people or groups when making a decision?

---

---
