

Ocean Plastics Pollution Solutions Contest Criteria

Create a rubric that will help your team compare different pollution solutions and choose a winner of the Ocean Plastics Pollution Solutions Contest!

- First, discuss which three criteria you think are most important in a pollution solution. Examples of criteria might include Area of Impact, Economic Benefits, Source Reduction, or others that your team decides. Write these criteria in the left column.
- Then, create a description of what high impact, moderate impact, and low impact would look like for each of those criteria.

	Description of High Impact (6-8 points)	Description of Moderate Impact (3-5 points)	Description of Low Impact (0-2 points)
Criterion 1:			
Criterion 2:			
Criterion 3:
