Glider Instructions

Follow the steps below to build two gliders using the Glider 1 and Glider 2 templates. To build glider 1, follow Steps A-D and E1. To build glider 2, follow steps A-D and E2.

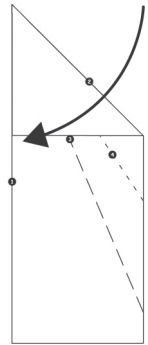

Step A:

Fold the template in half lengthwise along 1.

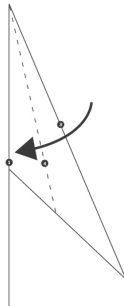

Step B:

Folding along line 2, bring one of the corners toward fold line 1. Make sure the edge lines up with the fold. Fold the opposite corner the same way.

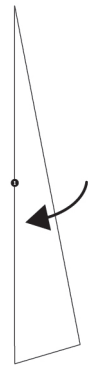

Step C:

Bring line 2 toward line 1, folding along line 3. Repeat with the other side.

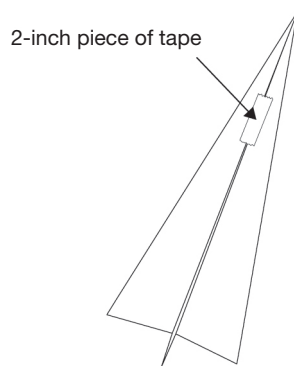

Step D:

Bring line 3 down to line 1, and fold the paper along line 4. Repeat with the other side.

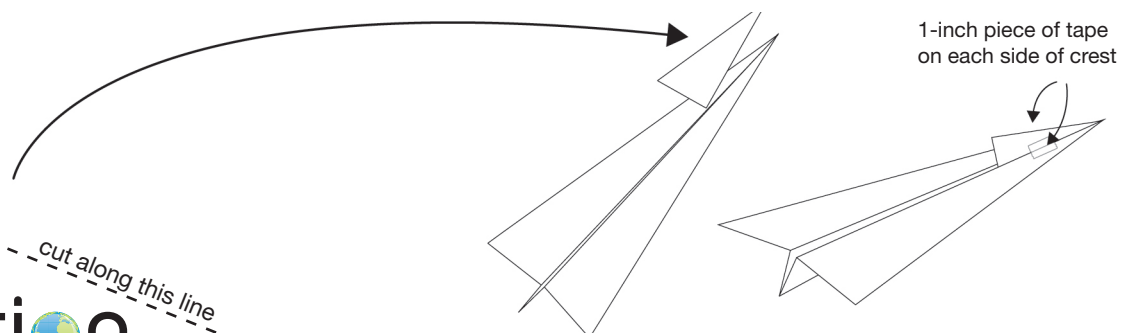

Step E1:

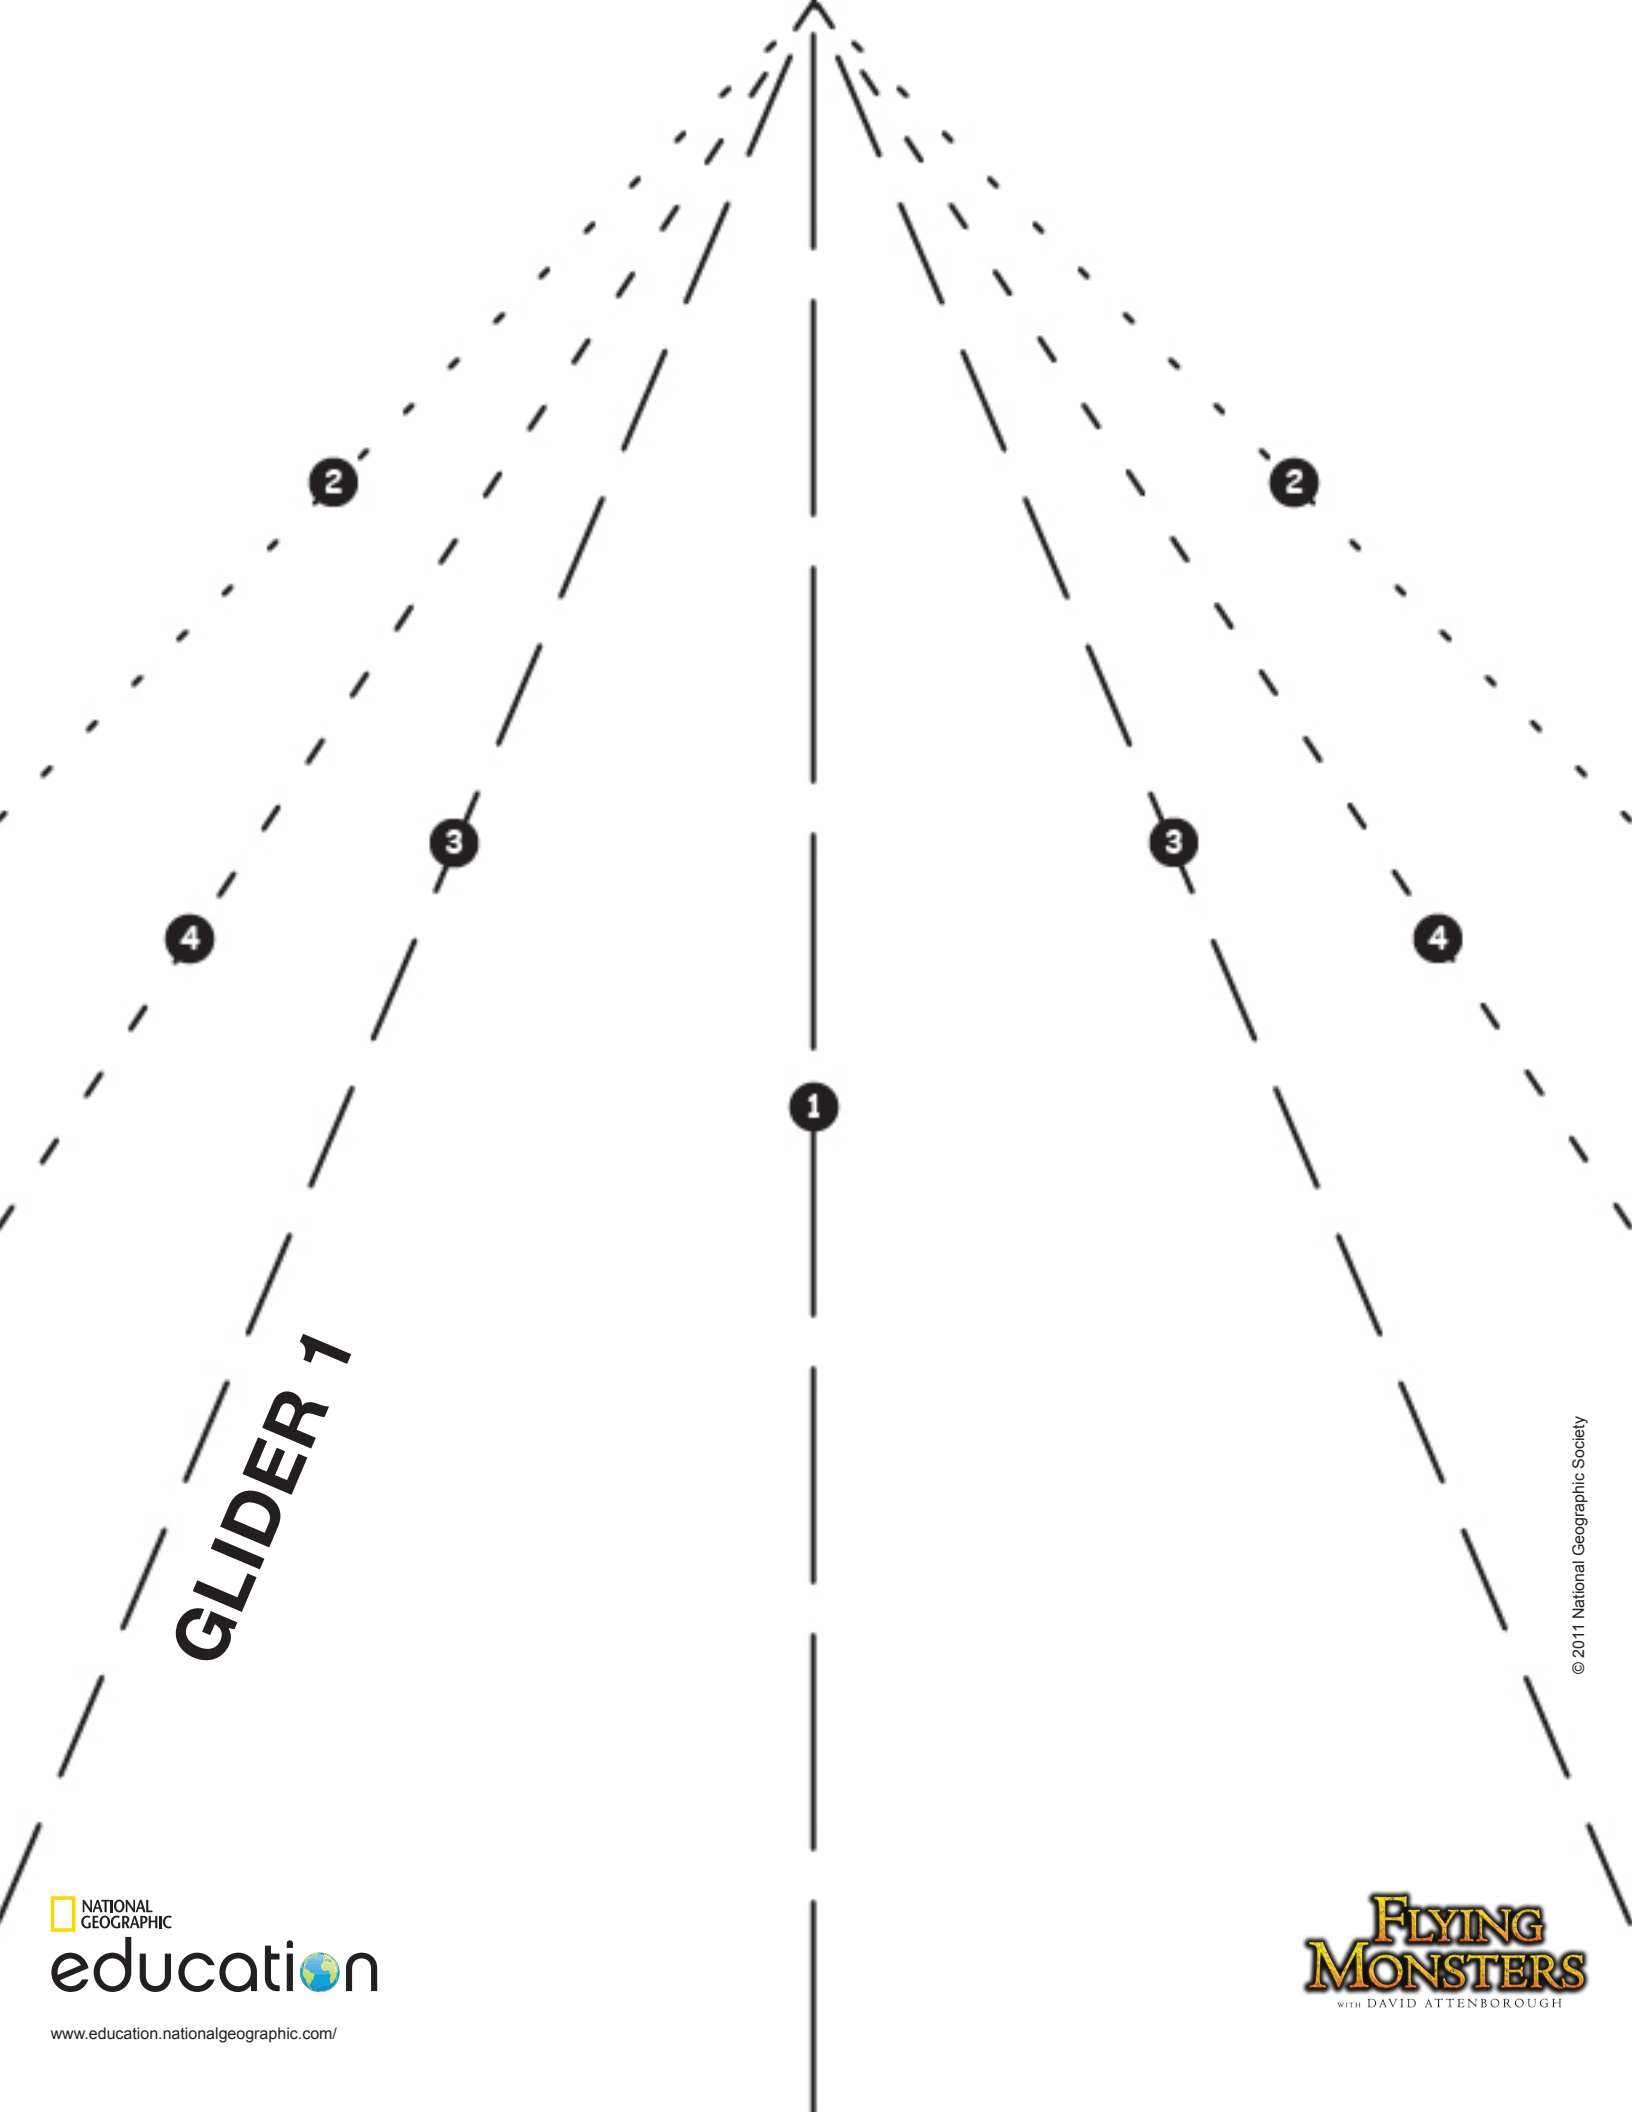

For Glider 1, tape along the top near the point with a 2-inch piece of transparent tape.

Step E2:

For Glider 2, cut the triangle from the corner of this page. Slide the long side of the triangle into the fold of the glider near the point. Tape the triangle to the glider on each side with two 1-inch pieces of tape.
