

Changing Seas Rubric

Name

Date

[MS-ESS3-2](#): Analyze and interpret data on natural hazards to forecast future catastrophic events and inform the development of technologies to mitigate their effects.

Product Element	Student product accurately and fully incorporates this element.	Student product partially incorporates this element.	Student product does not yet incorporate this element.
Graph: Graph of sea level change depicts digital data sets and is properly labeled (axes and titles).			
Evidence-Based Prediction: Understanding of trend slope is used to predict the direction and amount of future sea level change.			
Mitigation Technologies: Technologies listed to mitigate the effects of sea level rise are accurately described.
