Directions: Use these prompts to reflect on your work.

The most important thing I learned during this unit was:

Describe your contributions to the team's efforts, both in the activities and the culminating project:

If I could redo this project, I would:

How has this project helped me to understand how I, as a planetary steward, can take an active role in saving species from extinction?

Furthering Our Impact: How might we spread the word within our school community?
