

How Humans Assist Animal Migration

Name

Directions: Take notes as you learn about one example of humans assisting animal migration. After completing your work, return to your project group and share what you have learned.

Species	Notes
What is the problem in this example?	
What did people do to fix the problem?	
How effective is the solution in helping animal migration?	
Who is responsible for this action? (e.g., environmental organizations, government, individual people)	
Would this action be useful in your region or for your focal migratory animals? Why or why not?
