My Animal Photos

by Joel Sartore

leopard cub

I have a big goal. I want to take photos of as many different animals as I can. A zoo is a good place to find many kinds of animals.

I go to a lot of zoos. The zookeepers help me. They bring each animal to me. Then it is time to take photos.

caiman

ducklings

I use a camera and lights. I use a tent for small animals. It makes them feel safe. I poke my camera through a hole in the tent.

baby tapir

bison

I take photos of big animals in a pen or a room. I only take photos for a few minutes. I do not want to scare the animals.

peacock

blue waxbills

When I am done, I share the photos with people. Now more people can see how wonderful these animals are.

The animals are wonderful. I never know what they will do. Some fall asleep. Some move around. Others make a mess, like these hyenas.

hyenas

rainbow stag beetle

penguins

chipmunk

tree frog
