

Our Immune System: Body Map

Part 1: Read the [Attack of the Germs!](#) article with your partner. As you read the first three sections, focus on the location, structure, and function of different immune system tools.

- 1) Use the body map below to draw each part of the immune system discussed in the article.
- 2) Label your drawing with the name of the part, such as: **Skin**.
- 3) Add a note about how the part helps to protect your body from germs or getting sick.

Part 2: As you read the Staying Healthy section of the article, write down tips to support our immune systems here. Add any other ideas that you have and from the [Spreading Germs](#) activity.

Tips to Support Our Immune Systems and Stay Healthy:
