

Project Journal: Watersheds

Name

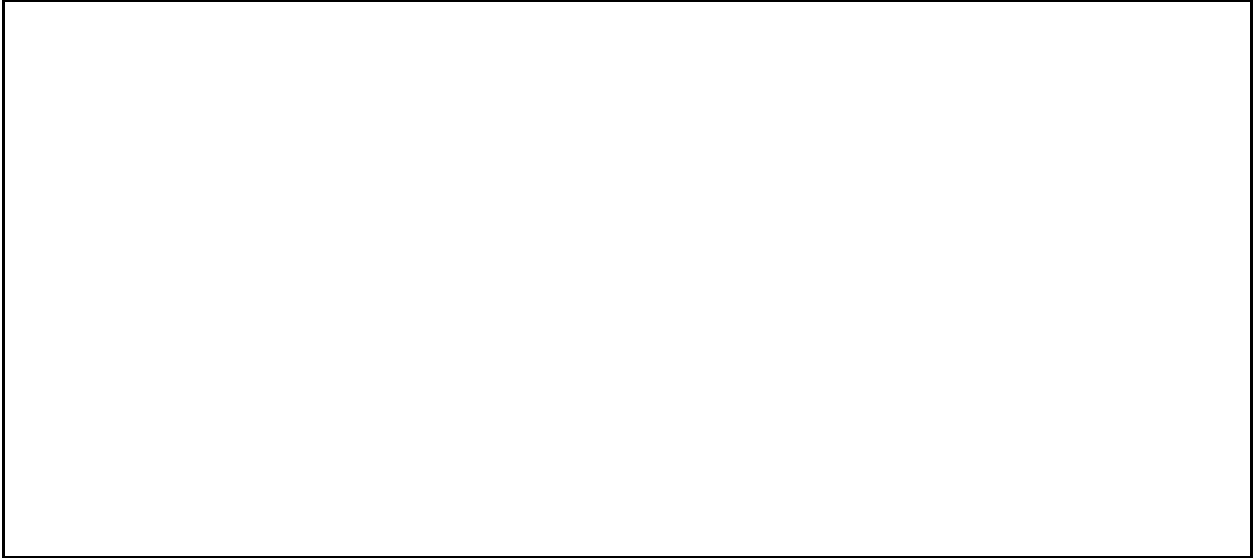

Date

Directions: Record your responses to each of the following prompts using words and images.

1. What did you learn about the path of the water in your own watershed? What was surprising? What questions do you have? Record your response in the space below.

2. What did you learn about Mount Everest's watershed? What was surprising? What questions do you have? Record your response in the space below.

3. What did you learn about the experiences of individuals in Everest's watershed? What was surprising? What questions do you have? Record your response in the space below.

4. After this activity, what evidence do you have that humans have an impact on Earth's systems, particularly on freshwater?
