Blue Holes Expedition Planning and Preparation

Use the questions below to think through preparations needed for a Bahamas Blue Holes expedition.

Write your ideas in the left column. Then watch the **Extreme Cave Diving** video and revise your ideas in the right column.

Expedition Purpose What is the main aim of the expedition?	
Research Question What is the main question that participants would like to answer?	
Objectives What supporting questions will researchers try to answer?	
The Team Who will be involved? What fields do they represent? What roles do they have?	
Duration How much time will the team need to spend on the expedition? What travel time will be required?	

Blue Holes Expedition Planning and Preparation contd.

Risks and Cultural Considerations What are the risks? What are the cultural considerations? What preparations can help to minimize risks and be sensitive to cultural considerations?	
Data collection How will the team collect information?	
Equipment What equipment will the team need?	
Estimation of Costs What aspects of the expedition will require funds? List.	
Additional Questions On a separate sheet of paper, list questions you have, with ideas for how to find answers.
