

Name _____ Date _____

Decision Statement

Part 1. Stakeholders

Rate each stakeholder on a scale of one (1) to three (3):

3 = the stakeholder with the highest level of influence in the decision

1 = the stakeholder with the lowest level of influence in the decision

Provide reasoning for each of the stakeholder ratings.

Stakeholders	Level of Influence	Reasoning
Indigenous communities (Ashéninka)		
Amazonian ecosystem		
Wildlife		
Logging companies		
Residents of rural communities		
International consumers		

Part 2. Consequences

Decision Statement, continued

What are the consequences these stakeholders will experience if the Pucallpa-Cruzeiro do Sul road is constructed? Place an X in the section you think the stakeholder belongs in (either most affected or least affected). Identify the consequence from your Consequence Web that is connected to each of these stakeholders.

Stakeholders	Most Affected	Least Affected	Connection to a Consequence
Indigenous communities (Ashéninka)			
Amazonian ecosystem			
Wildlife			
Logging companies			
Residents of rural communities			
International consumers

Decision Statement, continued

Part 3. Decision Statement

Write a final decision statement, considering all stakeholders' perspectives. The decision statement should include the following:

- Whether you would support the construction of the road
- Rationale for your decision, citing evidence from articles and maps you have investigated
- A statement of who would positively and negatively benefit from the decision
